PROFILE

Full-stack engineer with 3+ years building production web and mobile systems across TypeScript/Node, .NET, and React ecosystems. Comfortable owning features end to end – domain modeling, API design, and UI – with recent focus on POS, CRM, and microservices-based platforms.

SKILLS

Languages: TypeScript, JavaScript, C#, Java
Frontend: React, Next JS, Vue.js, Tailwind CSS, Zustand, TanStack Query, ShadCN UI
Backend: Node.js, Express.js, Nestjs, Fastify, ASP.NET ⚡ Core, Entity Framework Core
Databases: PostgreSQL, SQL Server, MongoDB, MySQL, Prisma ORM
Mobile: React Native, Java (Android)
Cloud & Infra: Aws, Docker, Kubernetes, RabbitMQ, Firebase, Supabase
Development Practices: Microservices, Clean Architecture, SOLID, CQRS, Repository & Mediator patterns, RESTful APIs
AI Dev Tools: Claude Code (CLI), Cursor, GitHub Copilot, LLM Orchestration & Prompt Engineering
Tools: Git, GitHub, Bitbucket, Postman, Swagger, Jira, Asana

PROFESSIONAL EXPERIENCE

Full-Stack Developer CedarPoint	11/2025 – Present
- Built a production-grade POS system for retail and restaurant workflows, covering the full order lifecycle: draft, hold, payment, refund, and cancellation. - Developed backend services in NestJS/TypeScript for core domain entities (Orders, Inventory, Shifts), using AI-assisted scaffolding to speed up boilerplate while focusing manual effort on business logic and edge cases. - Wrote unit test suites for multi-payment order and tax-calculation logic, reaching 90%+ edge-case coverage. - Built POS-optimized React/Electron interfaces and role-based access control for cashiers, managers, and admins.	
Full-Stack Developer SPCI	12/2025 – 04/2026
- Built and maintained full-stack mobile applications with a Vue.js frontend and ASP.NET ⚡ Core (Razor Pages) backend. - Used Claude Code to accelerate development of a CRM outbox feature and offline sync, cutting initial prototyping time by roughly 30%. - Migrated legacy server-side flows into modular Vue.js components and integrated RESTful APIs against SQL Server via Entity Framework Core.	
Full-Stack Developer- Omega Crop (Freelance)	12/2024 – 06/2025
- Built real-time geospatial visualization components in Electron/React for a crop-tracking SaaS Desktop app used in field operations. - Integrated Firebase for live crop-status updates and improved UI/UX patterns to reduce steps for common field-monitoring tasks..	
Full-Stack Developer - PetSafe (Freelance)	04/2025 – 07/2025
- Delivered a veterinary clinic management app for multi-clinic operations, from schema design to deployment. - Built a cross-platform mobile app in React Native/TypeScript with Zustand for state management. - Built a secure backend API with Fastify, Prisma ORM, and PostgreSQL, including JWT auth, role-based access control, and a schema for appointment scheduling and patient records.	
Backend Developer Smart Soft	06/2023 – 11/2023
- Designed and built Payroll, Orders, Sales, and Dashboard modules for an ERP system using C#, ASP.NET ⚡ Core, and Entity Framework Core. - Applied SOLID, DRY, and design patterns (Mediator, Repository); optimized database queries and API endpoints for response time. - Documented RESTful APIs with Swagger for frontend integration.	

PROJECTS

BidDrive — Microservices Car Auction Platform - Personal 	08/2025 – 09/2025
• Architected a microservices-based real-time bidding platform on .NET 9 and RabbitMQ, using Claude Code to generate event-driven schemas and DTOs across Auction and Bidding services. • Built a Next.js/TypeScript frontend with NextAuth and React Query; containerized the full stack with Docker and Kubernetes.	

EDUCATION & LANGUAGES

Bachelor of Computer Science , Lebanese University	11/2021 – 06/2024
• English, Arabic	Beirut, Lebanon
